

## Letter of Consent

Through this document, we authorize our son/daughter, \_\_\_\_\_, to participate in all academic, cultural, recreational, and sports activities offered during the Pre-College Program.

We are aware that our son/daughter will be staying in the Residences on the Queretaro Campus and cannot separate from the group at any time. Therefore, leaving for reasons unrelated to program activities, whether familial or social, is not allowed under any circumstances.

Additionally, we agree that neither the Instituto Tecnológico y de Estudios Superiores de Monterrey nor the Pre-College counselors and professors are responsible for any valuables (money, watches, jewelry, sports equipment, electronic devices, etc.) that our son/daughter brings to the program.

If symptoms of any infectious disease arise that may jeopardize the health of other participants, we authorize the removal of our son/daughter from the Pre-College program to safeguard their well-being.

We authorize the Pre-College program to cover any medical expenses not covered within the clauses of the insurance policy established in the medical expense insurance, which we must fully cover (reimburse) before the end of the event.

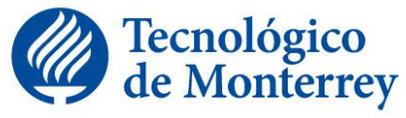

In the event of an accident requiring major medical attention, we authorize the transfer of our son/daughter to the nearest private hospital to the campus, where the instructions of the medical staff of that hospital will be followed. If we prefer any other type of medical attention by our own decision, the Pre-College program will not be responsible for providing care or following up on the needs arising from it.

If our son/daughter has any pre-existing conditions or requires medication, we understand that the Pre-College staff will not be responsible for controlling its supply. However, we agree that it is necessary to notify the Pre-College staff of this information so that they can take preventive actions and make relevant recommendations to those involved.

Furthermore, we understand that in the case of minor discomfort or symptoms of a non-threatening illness that does not jeopardize our child's participation in the program, medical care will be provided through the medical services of Tecnológico de Monterrey.

We authorize the immediate removal of our child from the Pre-College program if they engage in the consumption of alcohol, narcotics, or any substances not permitted by the regulations of Tecnológico de Monterrey students. We will promptly arrange for their return to their place of origin.

In the event that our son/daughter causes damage to the equipment or facilities of the institution, we agree to cover the cost of repairs, which must be paid in full before the end of the event.

Finally, we agree that the Pre-College program management committee reserves the right to condition and/or withdraw any attendee whose behavior is deemed inappropriate or may affect the conduct of other students, as well as the smooth operation of the event.
